

Editing

do photos delete or do i need to delete them?

Best regards Deon

<http://lunapic.com/?privacy>

Photos are automatically deleted after your image editing session is over (closing browser will work)

you can manually delete the images you were working on with the File -> Close menu item

<http://lunapic.com/?close>

Make sure that you have saved your images first if you want to keep them

<http://lunapic.com/?save>
