

## General

**I've been looking for a hexagon photo generator.  
I'd like to sew a quilt made out of hexagons but  
cannot seem to find anything that will generate a  
photo into hexagons?**

The Kaleidoscope tool with 6 sides will create such a pattern.

From the menu: [Filters -> Kaleidoscope](#)

Select 6 sides and go!

Unique solution ID: #1249
